

Soft Care™ Plus Pure

Handwash and disinfectant

Description

Soft Care Plus Pure is a mild handwashing product with excellent bactericidal properties. The product does not contain perfume, making it suitable for application in the food service area.

Key properties

Soft Care Plus Pure blends a combination of mild surfactants, bactericidal agent, and humectants to provide disinfection and excellent removal of greasy soil whilst remaining mild to skin.

Soft Care Plus Pure has been formulated with Chlorhexidine Digluconate, a good broad range bactericidal agent. This ingredient remains active against bacteria, even after rinsing and drying of the hands. In medical practice Chlorhexidine based formulations are widely used as general disinfectants.

Soft Care Plus Pure does not contain perfume, eliminating the risk of tainting foods and making it suitable for use in food service areas.

Soft Care Plus Pure ingredients are kind to skin, despite their efficacy. This mildness makes the hand wash suitable for use where frequent hand washing is required.

Soft Care Plus Pure is free of unwanted ingredients like triclosan, parabens and PHMB.

Benefits

- Contains Chlorhexidine Digluconate, a highly effective bactericidal agent
- Is mild on hands; can be used for frequent handwashing
- Excellent cleaning performance
- Perfume and dye free (suitable for food service areas)
- Free of triclosan, parabens and polyhexamethylene biguanide hydrochloride (PHMB)

Use instructions

Apply 2 doses of Soft Care Plus Pure and rub for 60 seconds.

Rinse with lukewarm water and dry hands thoroughly. Dry hands are essential in preventing cross contamination and skin irritation, and in maintaining good hand hygiene.

Technical data

Appearance	Light yellowish opalescent liquid
Relative density (20°C)	1.02
Viscosity (m.Pas; 25°C)	1050
pH (neat)	5.25

Safe handling and storage information

Store product away from extremes of temperature (temperature $>-5^{\circ}\text{C}$ and $<40^{\circ}\text{C}$).

Please make sure that the dispensers are thoroughly cleaned prior to switching to this product. Do not wash fabric stained with Soft Care Plus Pure with chlorine based bleach as this will result in dark red Chlorhexidine stains. Please use Perborate or Percarbonate based bleach systems instead.

Full guidance on the handling and disposal of this product is provided in a separate Safety Data Sheet.

Microbiological data

Soft Care Plus Pure passes EN1499 and EN1276.
